

I have been a listener supporter of KLOVE radio station for the past 4 years and continue to support it because I believe in what they do. Their station is the ONLY one I listen to at work, home, and in the car. I appreciate that I don't have to worry about the music content while my children are listening, and they reinforce the value my family believes in. Please do not replace their FM translator with an LPFM. I want to continue listening! thank you
